BEAM

aluminium

*A collection of aluminum outdoor
furniture with a design of marked
architectural
inspiration.*

Its rectilinear cut and strong volumes gives it an elegant rationalist style, obtained from a studied set of slats and planes of different dimensions, whose calculated position generates a subtle graphic expression, as well as refined details that gives it identity and character.

Beyond its attractive presence, another of the great peculiarities of this collection of aluminum outdoor furniture is that it is available for personalization in the entire RAL color chart. In addition to the versatility that it implies when designing a space, this possibility also highlights the ability of the Beam collection to adopt a more neutral, sober, serene, or colorful, vibrant and carefree appearance.

Its perception changes a lot depending on the color or material of its structure, since Beam is available not only in aluminum, but also in Iroko wood.

A high-angle photograph of a modern outdoor lounge set. The furniture, including two lounge chairs and a small round table, is arranged on a circular wooden deck. The deck is surrounded by a light-colored gravel area. In the background, there is a dark wooden fence and some greenery. The text is overlaid on the right side of the image.

The generous depth of the seats in the armchairs and sofas offers great comfort, reinforced by a slight inclination in their backrests.

Furniture for future.

A modern outdoor lounge set is positioned on a curved wooden deck in a Japanese garden. The set includes a sectional sofa with light-colored, voluminous upholstery and a matching coffee table. The garden features a gravel path, a dark wooden slat wall, and several potted pine trees. The scene is lit with warm, golden light, suggesting late afternoon or early morning.

Its voluminous upholstery is made with acrylic fabric mass dyed, which prolongs color fastness. They are laminated fabrics and have heat-sealed seams, so they are waterproof and do not allow moisture to penetrate inside.
