ETERNA

OICOOK

*Enjoy the outdoors with all the
comforts of an indoor kitchen.*

ETERNA is our outdoor kitchen model from the **OiCook** collection with a more industrial, modular and light aesthetic. Its design is based on a single module size, whose structure has a mesh shelf at the base that exposes its entire lower half. This not only accentuates its lighter and more industrial character compared to the other **OiCook** designs, but also makes it more accessible and easier to assemble, even by the user himself.

The design of the Eterna outdoor kitchen module can be customized by leaving the countertop free, as a work surface, or incorporating different cooking elements and a sink.

It measures 120 x 78 cm, so with just two elements you can compose a kitchen of 240cm long with all the basic necessities, including the possibility of adding two drawer unit refrigerators.

Furniture for future.

The countertop, however, is made of MDI porcelain material, available in five different finishes. A material resistant to both the harsh exposure to the weather that an outdoor kitchen experiences as well as cuts, stains and splashes from cooking. It can be equipped with a ceramic hob, barbecue or teppanyaki plate from Barazza, accessories made in AISI 316 thick stainless steel, especially for exteriors.

In addition, one of the most functional, elegant and understated details of Eterna is that the sink is made entirely of stainless steel and incorporates a folding faucet and a lid, allowing it to be kept hidden to take advantage of that space as a surface when its not in use. It also prevents dirt from entering the bucket, an extra feature that is appreciated in an outdoor kitchen.

Furniture for future.

Barbacue

Barbecue with electric element.

Lava stone included.

Settings 0 to 9.

Maximum absorbed power: 2,4kW.

Equipment: Schuko mains plug.

Waterproof Cover.

Waterproof cover.

Teppanyaki

2 cooking area.

Electronic temperature control 0 °C to 250 °C.

Hotplate activation indicator and thermostat.

Maximum absorbed power: 3kW.

Equipment: Schuko mains plug.

Waterproof cover.

Thalas chopping board.

Solid oak wood Thalas chopping board.

Waterproof cover.

Ceramic Stove

Induction Plaque.

Minimum pan diameter: $\varnothing 90\text{mm}$.

Ajustable power levels: 1,6 - 2,0 - 2,4 - 2,8 - 3,2 - 3,7 kW.

Maximum absorbed power: 3,7kW.

Equipment: Schuko mains plug.

Waterproof Cover.

Thalas chopping board.

Functions: power management, booster, selective pan detection, keep warm, automatic preheating, electronic child safety lock, residual heat indicator, safety switch-off.

Solid oak wood Thalas chopping board.

Waterproof cover.

Multi-purpose cover

Extra thick AISI 316 stainless steel.

Dual function: cover and serving tray.

Compatible with all kitchen modules.

Compatible with waterproof.

Sink

54x34x18,3 cm Bowl.

Balanced, removable, AISI 316 stainless steel Cover with manual opening.
 Equipment: 3" 1/2 basket strainer waste, B overflow, Thalys telescopic mixer tap with remote control.

Fridge

Drawer fridge capacity 42 L.

Range of temperature from 0°C to +15° C.

Internal and external walls in stainless steel polished.

Door in stainless steel brushed.

Polyurethane foam insulation thickness 45mm.

Internal LED light with door switch.

**TECHNICAL
FEATURES**

MDI - MINERAL. DESIGN. INNOVATION.

The structure of the modules is made of aluminium, while its panels and worktop are made of a porcelain material (MDI) available in different finishes, highly resistant both to inclement weather from the outside and to cuts, stains and splashes from cooking.
