DESIGNED BY
OISIDE DESIGN STUDIO

IN-A

*A kitchen for outdoor
living.*

IN-A is perfect for spaces that love to change.

With just three modules, this kitchen allows for various configurations based on the needs of use, which can also be easily reconfigured.

This type of modular kitchen responds to the current trend towards more versatile, mobile, and flexible equipment, capable of facilitating changing environments for different social moments.

For example, in a villa, a hotel, or an event space, it can be relocated from garden areas, pools, or terraces in summer to porches or interiors in winter. This extends its use to all seasons of the year

The combination of sleek aluminum and durable porcelain in IN-A's finishes creates a stunning and high-end look for your outdoor kitchen

*High-quality materials
designed for intensive
outdoor use give IN-A a
5-year warranty.*
