LINEA

A design conceived for furnishing sophisticated contemporary spaces.

LÍNEA is a collection which based on its looks and variety of elements allows for great versatility when designing exterior living and dining areas for outdoors life featuring loungers that blend in easily with any number of styles.

Manufactured using only quality, extremely resistant materials and upholstery the aesthetic versatility of the different elements of the Línea collection facilitate the design of **sophisticated outdoor spaces**. For exterior spaces that work, are comfortable, warm and welcoming with lots of style and enduring looks.

Thanks to its **elegant rationalist design** Línea is a collection that is ideally suited to contemporary architectural spaces in its neutral colour range. However that same characteristic is softened for the versions expressed in the more daring colour palette, creating a more **laid back and less formal look**.

A rationalist style design, perfect for contemporary spaces.

The LÍNEA collection offers a series of elements and selected tones that can be adapted and customised depending on the requirements, including materials, dimensions and colour palette for specific projects and spaces.
