N12

*The contemporary make
over of traditional wicker
furniture using aluminium.*

A collection that takes the look of traditional wicker furniture and gives it a more contemporary design update, it's made from an elegant combination of tubular aluminium profiles and wire rods.

The different elements of the N12 collection are conceived as a mixture of tubular aluminium profiles and wire rods that intersect at points just like how wicker furniture is made. The beauty of the structure and framework mesh is projected on the ground beneath creating an attractive pattern of shadows.

Technology and tradition come together with this collection, an evolution towards complex, light-weight, solid and resistant aluminium structure outdoor furniture with beautifully executed welds, practically invisible. With slender upholstered elements that lend the combination of structure and cushions a sophisticated air, especially so in the case of the loungers.

The framework of the N12 collection seating is designed with a curvature that adapts to the human form. And the carefully designed distance between the wire rods lends ergonomic comfort.

The colours for the N12 collection structural elements and fabrics can be chosen in different tones for customising outdoor spaces. And in fact the structures can be made to match any RAL colour.

N12 COLLECTION	Reference	Description	Dimensions (piece / cm)	Weight (kg)	Pieces (/ Box)	Dimensions (Box / cm)	Volume (m ³)	Weight (kg)
	112160	Oi Conversation Chair	72 x 85 x 84	5,5	1	100 x 100 x 100	1,0	6
