

DESIGNED BY  
OISIDE DESIGN STUDIO.

# OIPOTS

*A versatile collection of planters  
creating compositions and defining  
for separate spaces.*

**Made using aluminium these outdoor planters can equally be used for indoors. They include a drainage system for dealing with excess water and a base tray that retains it.**

The collection of Oi Pots planters includes square, rectangular as well as rounded models. Because they are all available in different sizes and heights they allow for the creation of **grouped configurations with varying rhythms** thanks to the selection of different dimensions, formats and colour options.

The cubic and rectangular models can be used to design structural separations that alternative elements of different heights and even depths. Beyond their practical application as planters this is a collection that can also define different areas and **structure outdoor spaces**, creating paths, hinting at circulation routes or marking boundaries.

*The five formats, each of which is available in a choice of four sizes, can be used individually or in combination to design garden areas and layouts featuring parterres.*

*OI POTS is a collection that can be customised in whatever colour you chose from the RAL card, in addition to the standard colours. The collection features a matt finish but can be provided with a gloss or satin finish to order.*

## MORE ABOUT OISIDE DESIGN STUDIO

OISIDE develops its collections in collaboration with talented designers and architects, who count on the help of its own design team. Innovative designs both aesthetically and technically with a sophisticated and timeless appeal featuring ingenious detailing. It is this same team that carries out research into new systems and finishes to improve the resistance of the OISIDE materials and upholstery.

### ABOUT OISIDE

OISIDE is a Spanish firm specialising in the design and manufacture of outdoor furniture for contract and residential projects. With more than 20 years experience behind it OISIDE is a company with a significant international presence working with architects and designers from around the world. The production of its collections is undertaken entirely in Spain through expert manufacturing of the highest quality that allows OISIDE to offer a great degree of customisation through its designs.
