VIOLET

*Spectacular outdoor furniture
of angular and exaggerated
volumes.*

Angular with exaggerated volumes. This defines Violet, the spectacular collection of outdoor furniture with a unique design featuring over-sized proportions and asymmetrical forms.

Featuring angular tubular profile aluminium structures the design of the Violet seating is characterised by the use of a wrap around high-tech exterior grade fabric that provides them with over-sized backrest volumes and ergonomic forms. A unique use of nautical grade fabrics with a spectacular end result.

The asymmetry of the tables on the other hand provides the perfect dialogue with the angular seating. The collection is completed with a rocking chair that is undoubtedly one of Violet's highlights. It also includes a trolley with a playful design that seems to visually defy gravity.

The design of the Violet collection features integrated handles as part of the structure for the chairs and the side tables. This together with their lightness allows for the easy re-configuration of outdoor spaces.

The structural elements and the fabrics can be chosen in different colours making dual colour combinations possible. In fact, the entire collection can be customized both in terms of dimensions and any color from the RAL card.
